The Parties shall have exchanged in full transparency such information as they consider to be material to their consent to enter into the Order on the basis of the Seller's Offer, if any.

The governing language of the Order shall be English.

The Order, subject to prior acceptance by the Seller, shall become effective on the date on which all of the following conditions are met:

- (i) receipt by the Seller of the payment in accordance with article 3.2 (Payments), and

The prices are fixed and firm during the Offer period, unless otherwise specified in the Offer.

The prices are valid for a period of thirty (30) days from their date of issuance, unless extended by the Seller by written notice to the Buyer or for any other period otherwise specified in the Offer.

The prices are established for delivery of the Product, Software and/or Documentation according to the Incoterm mentioned in the Offer. If not specified in the Offer, the applicable Incoterm is Free Carrier (FCA) Seller's shipping site (Incoterms® of the International Chamber of Commerce - 2020 Edition).

The prices are established excluding VAT (Value Added Tax) in Malaysia and free of any tax, duty or any other charge payable outside Malaysia which will be exclusively borne and paid by the Buyer, as specified in article 4 (Taxes).

In the event of default in the performance of the Order, Buyer may accept the Products, Software and/or Services at a reduced price only after obtaining Seller's prior written consent to the principle of reducing the price and the amount of such price reduction.

3.2 Payments

Direct debit

All payments shall be made in favor of the Seller, without any deduction of any kind, to the credit of its bank account mentioned in the Offer or in the invoice sent by the Seller.

Currency

Unless otherwise stipulated in the Offer, the currency of account, invoicing and payment is the Malaysia Ringgit (MYR).

Terms of payment

Except as otherwise provided in the Offer, payments shall be made as follows: 100% upon issuance of Order, unless otherwise agreed by the parties.

Late payment by the Buyer

In the event Buyer fails to make any payment on the due date then, without prejudice to any other right or remedy available to Seller, Seller may, at its option either: (i) postpone the fulfillment of its own obligations until full payment of the sums due for the principal; (ii) charge Buyer interest on the amount unpaid, by applying per half year, for the first semester of the relevant year, the 3-month SIBOR rate in force as of the 1st of January of the said year and the one in force as of the 1st of July for the second semester of the said year, increased by ten (10) percentage points, until payment is made in full (a part of a month being treated as a full month) plus a lump sum fee of MYR 200 for collection costs; (iii) terminate the agreement upon expiry of a seven calendar (7) day written notice of Seller to the Buyer which has remained without effect.

Seller reserves the right to establish, at any time, a limit for outstanding credit in favor of the Buyer, and adapt the applicable payment periods accordingly.

Payments made hereunder are non-refundable.

4. TAXES

All taxes, duties, fees, etc., of any kind whatsoever, relating to or connected with the performance of the Order, existing and future and due in Malaysia, shall be borne and paid by the Seller, except for VAT, Buyer's corporate income tax, and Buyer's employee income tax, which if applicable shall be payable by the Buyer in addition to the Order price.

All taxes, duties, fees, customs duties, VAT, etc., of any kind whatsoever, relating to or connected with the performance of the Order, existing and future, payable outside Malaysia, shall be borne and paid by the Buyer in addition to the prices.

Unless otherwise stipulated in the Offer/Order, the Buyer, in its capacity as importer, shall carry out the import customs clearance formalities and shall pay in addition to the prices all taxes, duties, fees and other charges due upon importation directly to the competent authorities.

Should Buyer be required, by the effect of existing or future Tax Treaty or by law, to make any deduction or withholding from any payment to Seller under the Offer and/or related Orders, the amount of the payment by the Buyer shall be increased to the extent necessary to ensure that, after such deductions or withholdings, Seller receives payment equal to the amount it would have received (e.g. invoice value) had no such deduction or withholding been required.

In the event that the Seller is required to pay taxes, duties, fees, etc. of any kind, existing and future, outside of Malaysia, the Buyer agrees to reimburse the Seller within thirty (30) days from the date of receipt of Seller's invoice therefor. In the event that such reimbursement is not permitted by applicable law, the price of the Order shall be increased to cover the cost incurred by the Seller.

The provisions of this article 4 (Taxes) shall survive performance of the obligations under the Order or expiration or termination of the Order.

5. TEST AND ACCEPTANCE

5.1 Factory acceptance

Unless otherwise provided in the Offer, upon completion of manufacture and prior to delivery, the Product/Software shall be subject to factory acceptance tests (hereinafter referred to as "FAT") to be performed at the Seller's factory to verify that the Product/Software complies with the technical specifications set forth in the Offer.

Unless otherwise provided in the Offer, the Product/Software will be deemed accepted by the Buyer upon delivery thereof.

FAT shall be performed by the Seller in accordance with Seller's quality assurance procedures in effect at the time of such FAT. At Buyer's request, the Seller shall inform the Buyer of the anticipated dates of performance of the FAT. Subject to compliance with applicable law, the Buyer shall have the right to delegate one representative to attend the FAT provided that notice is sent to the Seller at least seven (7) calendar days before the anticipated date of commencement of the FAT. Failure of the Buyer's representative to attend to the FAT shall not delay or prevent the performance of the Factory Tests. In such case, the Seller shall carry out the FAT alone.

Upon successful completion of the FAT, the Seller shall issue, sign and submit for the Buyer's signature a Factory Acceptance Certificate (hereinafter referred to as the "Factory Acceptance Certificate") to be signed by the Buyer within two (2) calendar days from the date of submission. Should the Buyer refuse to sign the Factory Acceptance Certificate, the Buyer shall notify Seller in writing of the reasons thereof within the two (2) calendar day period referred to above.

Any non-conformity discovered during FAT affecting the operational use of the Product/Software shall be corrected by the Seller, and then the Product/Software shall be re-tested in accordance with the above mentioned procedure. Non-conformities not affecting the operational use of the Product/Software do not constitute a valid reason for refusal to sign the Factory Acceptance Certificate. Such non-conformities will be corrected by the Seller before delivery.

Should Buyer fail to sign the Factory Acceptance Certificate within the above-mentioned period of time without substantial reason, or should Buyer fail to attend the FAT despite notice from the Seller, then the Seller may (i) sign the Factory Acceptance Certificate alone and (ii) issue a written statement certifying that the Buyer did not attend the FAT or refused to sign the Factory Acceptance Certificate without substantial reason or without notifying the Seller of the reasons for its refusal. In such event, such statement along with the Factory Acceptance Certificate bearing the sole signature of the Seller shall then have the same force and effect as if the Factory Acceptance Certificate had been signed by both Parties.

All expenses incurred by the Buyer's representatives in attending the FAT are not included in the price quoted in the Offer and shall be fully borne and paid for by the Buyer.

5.2 On-site acceptance

Unless otherwise provided in the Offer, upon delivery or upon completion of installation after delivery, the Product/Software shall be subject to on-site acceptance tests (hereinafter referred to as "SAT"). The SAT shall be performed in accordance with the procedures submitted by the Seller to the Buyer prior to the anticipated dates for the commencement of such SAT.

Once the Product/Software has passed the SAT, an On-Site Acceptance Certificate (hereinafter referred to as the "On-Site Acceptance Certificate") shall be issued and signed by the Parties in accordance with the provisions of article 5.1 (Factory acceptance) which shall apply *mutatis mutandis*.

If, for any reason not attributable to Seller, the SAT cannot be performed within thirty (30) calendar days after the date of delivery of the Product/Software, the Seller shall issue a written statement that an On-Site Acceptance Certificate has not been signed. Such written statement shall entitle the Seller to receive payment under the Order as if such SAT had been successfully completed. The issuance of such written statement shall not prejudice the Buyer's right to have the SAT performed at a later date in accordance with the provisions of this article.

Use or operation of all or part of the Product/Software by Buyer or any third party other than the Seller prior to acceptance as aforesaid shall automatically constitute full acceptance of such Product/Software, with all the effects thereof.

5.3 Services' acceptance

Unless otherwise provided in the Offer, upon completion of the Services, the Parties shall sign a certificate (hereinafter referred to as the "Completion Certificate") for each Service. This signature shall take place no later than five (5) calendar days from the date of presentation of said Certificate of Completion by the Seller.

If the Buyer does not sign the Completion Certificate within the above-mentioned period without a substantial reason, the said Completion Certificate bearing the sole signature of the Seller shall be deemed to have been signed by the Buyer without reserve, with all the effects thereof. Use of the Services shall also be deemed as acceptance of the Services.

6. DELIVERY - TRANSFER OF RISK – STORAGE

Delivery and transfer of risk shall take place in accordance with the Incoterm referred to in Article 3.1 (Price).

The Seller reserves the right to make partial and/or anticipated deliveries with partial billing of the corresponding amount. In particular, the Seller reserves the right, for a given Order, to deliver quantities that may differ by ten percent (10%) more or less than the quantity ordered by the Buyer and the Buyer undertakes to pay the price corresponding to the quantity of Products/Software actually delivered by the Seller.

Delivery dates are computed from the T0 date as defined in article 1 (Definitions).

Should the delivery be delayed or prevented for any reason beyond the reasonable control of the Seller, the Product shall be stored and the date of placing in storage shall be deemed the date of delivery. Storage costs, including disposal costs, if any, shall be borne by the Buyer. In this case, the Seller will issue a warehouse certificate (hereinafter referred to as the "Warehouse Certificate"), which shall be validly presented to the Seller's bank for payment purposes.

7. TRANSFER OF OWNERSHIP

Ownership of the Product shall pass to the Buyer upon delivery of the Product to the first carrier regardless of the Incoterm applicable to the delivery.

There is no transfer of ownership of the Software.

8. LIQUIDATED DAMAGES FOR DELAY

Seller's liability for late delivery of the Product/Software shall be limited to the payment of liquidated damages as follows:

- (i) Liquidated damages shall only apply in the event of a delay in delivery of the Product/Software, where the cause was within the reasonable control of the Seller, which excludes any delay caused by Force Majeure (as defined in article 12), exceptional world events and shortage (article 14) and/or any act or omission of the Buyer. Liquidated damages shall amount to half a percent (0.5%) of the price of the delayed Product/Software for each full month of delay after the expiration of a grace period of thirty (30) days, and shall not exceed five percent (5%) of such price.
- (ii) Details of liquidated damages shall be notified to the Seller who shall be entitled to submit comments to Buyer within thirty (30) days of receipt of Buyer's notification.
- (iii) The Seller undertakes to reimburse the liquidated damages by credit note which may be utilized by Buyer for future payments.
- (iv) If, within ninety (90) days from the date of delivery of the Product/Software, the Buyer does not claim liquidated damages by letter with acknowledgment of receipt, Buyer shall be deemed to have waived its rights. However, such waiver by the Buyer shall not apply to any possible delay with respect to any other delivery.

- (v) Liquidated damages are fixed, in full satisfaction for the Seller's liability for delay and are exclusive and final remedy and in lieu of any other remedy, compensation or damage.

9. WARRANTY

9.1 Product Warranty (excluding Software)

Seller's warranty for the Product covers material defects or defects in workmanship which prevent the Product from functioning in accordance with the Product's technical specifications. Unless otherwise provided in the Offer, the warranty shall not exceed a period of twelve (12) months from the date of delivery of the Product.

The warranty does not apply to parts and consumables (such as ink cartridges, batteries, fuses, etc.), nor to defects resulting from or related to the failure of the Buyer to use and maintain the Product in accordance with its technical specifications and the Seller's Documentation and, more generally, in accordance with the standard rules for use of the Product.

The warranty shall be limited to the replacement or repair by the Seller, at its option, of the defective Product or any part thereof provided that (i) the defect has been reported to Seller within seven (7) days from the date of discovery, (ii) the notice of defect describes the defect and the circumstances of its occurrence in detail (iii) the allegedly defective Product has been returned to the Seller, and (iv) the defective Product has actually been acknowledged as such by the Seller.

If the defective Product has been soldered by the Buyer or by a third party to a device or another equipment, Seller shall not be responsible for the cost of returning and disassociating such equipment or device from the soldered Product.

In the event the warranty is invoked, the warranty period is suspended, and the Product, once repaired or replaced, is guaranteed for the remaining duration of the initial warranty period.

9.2 Software Warranty

For a period of three (3) months from the date of delivery, the Seller undertakes to correct major reproducible defects detected by the Buyer in the event of non-conformity of the delivered Software to its technical specifications which prevents its normal operation or the normal operation of the Product.

This warranty is conditioned upon (i) the Buyer notifying the Seller in writing of the defect within seven (7) days of its detection; (ii) the notice of defect describing the defect and the circumstances of its occurrence in detail; (iii) the Software not having been modified by the Buyer or a third party or combined with other software, except with Seller's prior written consent, and (iii) the Software having been used by the Buyer in accordance with Seller's specifications and instructions.

Beyond the above-mentioned warranty period, the Seller may correct the anomalies of the Software within the framework of a maintenance contract to be mutually agreed upon by the Parties.

9.3 General Stipulations

The warranty does not apply to defects arising from or related to (i) any combination of the Product with third-party equipment; (ii) any modification of the Product except by the Seller; (iii) any accident, act of vandalism, negligence or handling error by the Buyer; (iv) normal wear and tear; (v) improper installation, maintenance or storage by the Buyer or by a third party; and/or (vi) use of inadequate energy.

The Seller warrants that the Products, Software and Services comply with the state of the art and the security standards in force at the date of their design. However, the Seller does not warrant the resistance of the electronic, computer and/or digital security mechanisms of the Product and/or Software supplied in the event of attacks (such as cyber attack, virus...), given their constant evolution.

The provisions of this article 9 (Warranty) set forth the Seller's entire warranty obligations with respect to the Products, Software and Documentation. To the extent permitted by applicable law, the Seller makes no and expressly disclaims all other warranties of any kind. Fit for purpose warranty is expressly excluded.

10. GENERAL CONDITIONS OF DELEGATION OF PERSONNEL

When delegating personnel to the other Party's premises for the performance of the Services or for the performance of the tests provided for in article 5 (Test and acceptance), the Parties shall comply with the following provisions:

Any expenses so incurred by the other Party shall ultimately be borne (by way of reimbursement or deduction) by the employer.
- (v) If the period of incapacity due to illness or injury continues beyond one (1) month or is such that it would be preferable for the employee to be repatriated as soon as possible, the employee shall be repatriated immediately to his or her country of origin at the request of his or her employer or at the employee's own request and expense.
- (vi) In the event of death, the employer, with the assistance of the other Party, shall arrange for the repatriation of the deceased and shall bear all the costs thereof.

11. OBLIGATIONS OF THE BUYER

11.1 Buyer Furnished Items

The Buyer agrees to make available to the Seller in a timely manner or upon the date agreed in the contractual schedule, all equipment, materials, tools, buildings, vehicles, plans, drawings, documents, specifications, software and/or other information or other means, including access to the premises and network(s), necessary to perform the Order (hereinafter referred to as "Buyer Furnished Items").

11.2 Data made available to the Seller by the Buyer

The Buyer agrees to provide to the Seller, in a timely manner or upon the date agreed in the contractual schedule, the Data necessary to fulfill the Order.

The Buyer authorizes the Seller and its Affiliates to use the Data:

- (i) for the purposes of supplying the Product(s), Software(s) and performing the Services under the Order;
- (ii) for research and testing purposes, for the internal needs of the Seller and its Affiliates and/or;
- (iii) to develop and/or improve the Products, Software and/or Services provided by the Seller;

For the aforementioned purposes, the Buyer grants the Seller and its Affiliates, without additional financial consideration, a worldwide, sublicensable, irrevocable and non-transferable right to extract, use, store, modify, reproduce, integrate into its own databases, represent directly or indirectly on any medium whatsoever, by any means and in any form, all or part, qualitatively or quantitatively substantial, of the Data for the duration of their protection by copyright and/or by the *sui generis* right of the producers of databases.

11.3 Formalities and authorizations of third parties

The Buyer warrants that it holds all the necessary authorizations/licenses to use the Data referred to in article 11.2 (Data made available to the Seller by the Buyer). The Buyer agrees to indemnify and hold the Seller and its Affiliates harmless against any allegation or lawsuit from a third party in the event of infringement of the Data by the Buyer.

The Buyer undertakes to carry out all customs formalities incumbent on it in connection with the performance of the Order.

The Buyer agrees to obtain, at no cost and in a timely manner to the Seller, any permits, authorizations, licenses necessary to execute the Order and/or to use the Products/Services/Software, if applicable.

In the event that a Product incorporates an EMV (Europay MasterCard Visa) application, the use of the Product is governed by the rules of the payment scheme that owns the EMV application specifications. In this respect, the Buyer guarantees that it holds the rights to use the EMV application from the corresponding payment scheme and undertakes to provide the Seller with the relevant evidences, upon its first request.

11.4 Consequences of the Buyer's failure to comply with its obligations

The Seller shall not be held liable for any error or defect in the manufacture of the Products, the development of the Software or the performance of the Services which is the consequence of a defect in the Buyer Furnished Items and/or Data made available to the Seller by the Buyer.

If Buyer or any of its representatives, agents, employees, successors or assigns, co-contractors, contractors, etc., fails to perform any of its obligations within the time specified in the contractual schedule, all subsequent milestones in the contractual schedule shall be automatically postponed for a period of time at least equal to the duration of the delay in performance of such obligation, without the Seller incurring any liability as a result of the resulting delay. The Buyer shall indemnify the Seller for the consequences of such delay in performance (including any expenses and additional costs incurred by the Seller).

12. FORCE MAJEURE

The Seller shall not be in default if performance of any of its obligations under the Order is partially or wholly delayed or prevented by reason of Force Majeure.

"Force Majeure" means any event beyond the reasonable control of the Seller including but not limited to: governmental or public authority decision, act or omission, war (whether declared or not), hostilities, insurrection, act of terrorism, sabotage, fire, flood, explosion, epidemics, pandemics, quarantine restriction, disruption in the supply of supplies from normally reliable sources (including

but not limited to electricity, water, fuel and similar supplies), strikes, plant closures and labor disputes, suspension or revocation of any license, permit or authorization, embargoes, storms, earthquakes, delay of a subcontractor due to Force Majeure as defined above.

The occurrence of a Force Majeure event shall automatically suspend performance of the Order and the dates of the contractual schedule shall be postponed for the time period required to overcome the effects of the Force Majeure, and in any case for a period at least equivalent to the duration of the Force Majeure event.

If the Seller's performance of any obligation under the Order is delayed in whole or in part by reason of Force Majeure for a period exceeding six (6) months, either Party may request termination of the Order, in whole or in part, in accordance with article 17 (Termination – Products' end of life), and the Parties shall mutually agree upon a liquidation settlement. In case of disagreement, it shall be deemed to be a dispute which shall be settled in accordance with the provisions of article 25 (Dispute resolution).

The termination shall not affect the debts due between the Parties at the date of the termination, in particular for the Products, Software and/or Service in production or execution at the said date.

13. EXCEPTIONAL WORLD EVENTS – SHORTAGE

Exceptional world events, such as the COVID-19 pandemic and the conflict in Ukraine, are causing considerable disruption to the world economy, resulting in shortages, supply chain bottlenecks and disruptions in production and logistics, price volatility for both materials and labor and/or implementation of new instructions, laws and regulations issued by the competent authorities.

In response to this inflationary pressure and in view of the increasing uncertainty currently facing markets and businesses, the Buyer acknowledges that the impact of these changing events or the impact of any other similarly significant event on the Seller's performance cannot reasonably be determined and fully taken into account as of the date of the Order.

Accordingly, Buyer agrees that Seller shall have the right, to its own discretion to (i) reject or terminate any Order, (ii) revise the terms and conditions of the Order (including delivery schedule, shipment dates, lead times, volumes and/or prices) and/or (iii) offer the Buyer alternative solutions to complete/supply the Products/Software and Services, to the extent necessary, to limit the consequences of such disruptions due to an exceptional word event. In no event shall the Seller be liable to the Buyer for rejection, termination, cancellation or delays in the performance of its obligations to the extent that such failure or results from the aforementioned disturbances.

14. HARDSHIP CLAUSE

In the event of a significant change in circumstances unforeseeable at the time the Offer or the Order is issued, that imposes on one of the Parties an unfair burden arising from the Order, the Parties shall consult each other in order to jointly find equitable adjustments to the terms and conditions of the Order.

Unforeseeable change in circumstances means any event, external to the Parties that would be of such a nature as to significantly modify the economic balance of the Order by making its execution excessively onerous for one or the other of the Parties, which had not accepted to assume such a risk.

For the purposes of this article, (i) events occurring during the term of the Order, or (ii) events occurring prior to the conclusion of the Order, the existence or extent of which could legitimately be unknown to the Party invoking this clause, shall be taken into account.

When one of the Parties becomes aware of the occurrence of such an event, it shall notify the other without delay. Receipt of such notification shall have the effect of suspending performance of the Order.

The Parties undertake to meet without delay after receipt of such notification, to negotiate and agree on the terms of revision of the Order intended to maintain the balance initially provided for.

The Parties shall have a period of forty-five (45) days to reach an agreement on the terms of the revision, during which time they shall actively negotiate in good faith.

If at the end of this period, no agreement is reached, the Party wishing to obtain the revision may unilaterally terminate the Order.

15. COMPLIANCE WITH INTERNATIONAL TRADE LAWS

Each Party undertakes to comply with (i) all laws and regulations relating to export controls, national security and national strategic interests, and (ii) all economic sanctions or restrictions, which are in force in all countries (including the countries of the Parties, the United States of America and the United Kingdom) and in all international organizations, in particular the EU ("European Union") and the United Nations ("United Nations")

In the event that the Products, Software, Documentation and/or Services are subject to French export control regulations and/or foreign export control regulations, the following provisions shall apply:

- (i) the Buyer shall not sell, export or provide the Products, Software, Documentation and/or Services subject to the Order to any person or entity subject to sanctions, blocking or asset freezing measures applicable in the United States of America, any EU Member State (whether by EU regulation or governmental decision) or the United Kingdom. This applies to, but is not limited to,

natural and legal persons who are on OFAC's list of *Specially Designated Nationals and Blocked Persons*, on any EU Member State's national list or on the EU Consolidated Sanctions List.

- (ii) The Buyer hereby undertakes not to sell, lend or hand over in any capacity whatsoever, whether free of charge or not, temporarily or permanently, to any third party, without the prior written consent of the French and/or foreign authorities, the Products, Software, Documentation and/or Services covered by the Order (including their developments or corrections delivered under the warranty).
- (iii) Within thirty (30) calendar days from the date of acceptance of the Order, the Buyer shall execute (and, if applicable, have the end-user execute) and deliver to the Seller an end-use certificate in a form to be provided by the Seller upon Buyer's request (this requirement is a condition to the validity of the Order as set forth in article 2.2 (Order)).
- (iv) The Buyer shall maintain complete and accurate records of exports, re-exports and transfers of Products, Software, Documentation and/or Services provided under the Order for at least five (5) years from the date of export, re-export or transfer, and the Buyer agrees to provide such export records to the Seller upon request.

The Parties acknowledge that the subject matter of the Order may be subject to the provisions of the Wassenaar Arrangement or any successor, replacement or supplemental body governing sensitive technologies.
