Approved science-based target

The Science Based Targets initiative has validated that the corporate greenhouse gas emissions reduction target(s) submitted by

THALES SA

have been deemed to be in conformance with the SBTi Criteria and Recommendations (version 4.2). The SBTi's Target Validation Team has classified your company's scope 1 and 2 target ambition and has determined that it is in line with a 1.5°C trajectory.

The official target wording is:

Thales SA commits to reduce absolute scope 1 and 2 GHG emissions 50.4% by 2030 from a 2018 base year. Thales SA also commits to reduce absolute scope 3 GHG emissions from purchased goods and services, business travel, and use of sold products 15% within the same timeframe. Thales SA further commits to reduce absolute indirect use-phase emissions 15% within the same timeframe.**

**Non-CO₂ effects which may also contribute to aviation induced warming are not included in this target. Thales SA commits to report publicly on its collaboration with stakeholders to improve understanding of opportunities to mitigate the non-CO₂ impacts of aviation annually over its target timeframe.*
