

PRIVACY MANAGEMENT POLICY

THALES HELLAS recognizes the importance of the protection of natural persons with regard to the lawful processing of their personal information as a fundamental right. In that respect, the Company complies with the principles of personal information lawful processing, respects the rights and freedoms of the data subjects and secures that the possessed personal information is:

- collected for specified, explicit and legitimate purposes, which are stated at the Company's Record of Processing Activities, and are also collected after data subject's consent, when necessary,
- are processed only for the purposes for which they have been collected and / or for legal and regulatory reasons and / or for the defense of the Company's legal interest,
- not further processed in a manner that is incompatible with the specified purpose(s),
- adequate, relevant and limited to the minimum data required in relation to the specified purpose(s),
- subject to legal processing according to data subjects' rights, they are accurate, and, where necessary, kept up to date, particularly before taking critical decisions concerning the data subjects,
- not retained for longer than is necessary for the purposes for which the data were collected or for which they are further processed or for compliance of the Company with legal and regulatory requirements,
- retained secure from unauthorized access, unauthorized modification, loss or breaches,
- transferred to other organization (third parties or not) provided that secure level of data protection is ensured.

The above-mentioned are followed by all of the Company's employees and contracted parties that process personal information of natural persons on behalf of the Company.

The Company ensures full compliance with all the above by:

- applying a Privacy Information Management System, which covers its activities for monitoring and controlling the implementation of this policy, as well as effectiveness assessment regarding the regulatory framework and best practices for personal information protection,
- applying procedures for satisfying the complete and effective fulfillment of data subjects' rights, by responding within one month after the submission of request or three months in case there is reasonable justification for the delay which is notified to the data subject within the first month.
- explicitly informing data subjects regarding the processing of their personal information,
- incorporating personal information processing requirements to all operational functions, that are relevant to their processing,
- recognizing all internal and external interested parties and their requirements towards their personal information protection,

- specifying roles and responsibilities associated with personal information management,
- giving explicit directions to staff and contracted parties, who execute processing on behalf of the Company, for data use and data transmission according to the Management System,
- ensuring that data transmission to and processing by other organizations on behalf of the Company, complies with the regulatory framework for data protection as well as with the current policy,
- designing, adopting and monitoring a system of indicators and objectives for secure and lawful personal information management,
- investing in continuous staff training and awareness on personal information issues as well as in constant improvement of know-how and its sharing with the staff,
- providing all the necessary resources for ensuring Privacy Information Management System effective application,
- having designated, apart from the Group Data Protection Officer (GDPO), a Data Protection Coordinator (DPC) and Data Protection Referees (DPRs).
- sharing the policy with all the employees continuously updating this policy according to the applicable regulatory and legislative framework

THALES HELLAS is committed to continuously monitor and enforce the regulatory and legislative framework and to continuously implement and improve the effectiveness of the Privacy Information Management System.
