## HIGH PERFORMANCE SYSTEM

Watchkeeper X is an unmanned aircraft system designed for a wide range of military and homeland security mission requirements.

The system delivers intelligence surveillance and reconnaissance capability, operating in extreme and challenging environments to collect, exploit and distribute vital information efficiently.

Watchkeeper X is a fully airworthy, certified, unmanned aircraft system that can be adapted to your exact needs through the right choice in sensors, exploitation, mobility and effectors options. These options can be selected and inserted throughout the lifetime of the system.

Central to the effectiveness of this certified high-performance unmanned aircraft system is the aircraft. It has an impressive 16hrs+ endurance, operating at ranges in excess of 140km with maximum transit speed of 95knots. When operating multiple aircraft with the system you can achieve 24/7 surveillance, operating at any range.

### LEADING THE WAY IN TACTICAL INTELLIGENT SURVEILLANCE

- Fully certified system
- Adaptable for your needs
- Build around sovereignty development and requirements
- Roadmap for upgrades and development

### EXTENDED OPERATIONS

Require rapid deployment and minimal support to operate beyond the homeland

### MARITIME

Involves operating in mixed sea and land environment to secure ports, and shipping lanes

### HOMELAND SECURITY

Needs a safe and airworthy certified system to protect critical infrastructure and secure borders

### CONFLICT

Demands a robust and military standard design to survive in high intensity warfare

## WATCHKEEPER X

Designed to be tailored to your exact needs through our unique packages:

### Sensors

For your exact intelligence, surveillance and reconnaissance requirements

### Exploitation

Providing you with the right information in the right format at the right time in the right place

### Mobility

Mobile expeditionary deployments by air, land or sea without the need for fixed infrastructure to operate

### Effectors

Accurate targeting information and instant engagement to meet your requirements
