Since the Digital ID Wallet is updated in real time, those wishing to verify citizens' identities, such as law-enforcement officers, healthcare professionals, and retailers, know they are always accessing the most up-to-date information.

The Digital ID Wallet is protected by multi-layered high-end security mechanisms* which enable the wallet to combat the most sophisticated attacks.

* Gemalto Mobile Security Core

In the event of a phone being lost or stolen, digital ID documents can be remotely deactivated in near real time and wiped from the phone, making them unusable.

Citizen’s data is encrypted using advanced encryption techniques to ensure critical data credentials remain secure at all times.

An ID revolution in your smartphone

1. TAKING CITIZENS' PRIVACY TO NEW HEIGHTS
   - Each digital document is segregated from the others, no data leakage
   - Citizens control which data to share & who to share it with
   - Data sharing is always based on user consent
   - Data is encrypted

2. AN ARRAY OF À-LA-CARTE ID SERVICES FOR A FRICTIONLESS USER EXPERIENCE
   - Digital Signature: Enables citizens to sign forms and contracts digitally and remotely
   - Secure access to online services: Facilitates and secures access to online services that require proof of identity
   - Entitlement/verification: Citizens, patients, and drivers can prove their rights and entitlements
   - Digital signature
   - ID attribute sharing: Citizens can share those ID attributes they choose, such as their age or place of residence, without having to reveal all their personal information

3. BRINGING GOVERNMENTS AND CITIZENS CLOSER TOGETHER
   - Your phone is always with you: In fact, people are more likely to notice they forgot their phone than their wallet.
   - A single Digital ID Wallet for all documents: All your official digital ID documents are in one place, no need to have an app per service provider.

4. CONVENIENT
   - Your phone is always with you.
   - A single Digital ID Wallet for all documents.

5. SECURE
   - Data accuracy
   - Over-the-air revocation
   - Data encryption

6. BEYOND
   - An ID revolution in your smartphone.
