In the last 20 years, we are on a mission to save the time of our fellow engineers by making the best embedded tools. Design, production, and distribution of our time-saving embedded tools is the core business of Mikroe company.

We continue to grow and deliver great products to our customers in more than 130 countries.

WHO WE ARE?

In the last 20 years, we are on a mission to save the time of our fellow engineers by making the best embedded tools. Design, production, and distribution of our time-saving embedded tools is the core business of Mikroe company.

We continue to grow and deliver great products to our customers in more than 130 countries.

WHAT WE DO?

Mikroe has an entire ecosystem of tools designed especially for making fast progress while maintaining quality and staying competitive by reducing time to market.

We continue honoring the challenge we gave to ourselves – one product per day!

By following this daily task we have managed to develop more than 1900 products, and continuing.

Our most famous product line are the revolutionary add-on boards named Click boards™, and we have created over 1000 of them.

Whether you are an experienced engineer, student, beginner or enthusiast, you can find all the necessary tools for your project to stand out. Getting the results faster but with uncompromising quality is our number one priority.
