AVIOBOOK entrusted to digitise flight operations of 3 more airlines for an additional 300 tails

- AVIOBOOK strengthens its position as leader of the Electronic Flight Folder market with a record breaking 3 contracts signed in fall 2021.

AVIOBOOK has passed a huge milestone in its growth and development, reaching over 2600 tails using AVIOBOOK’s suite of applications.

Despite difficult economic conditions in the aviation industry caused by the COVID-19 pandemic, AVIOBOOK has proved that its robust and reliable suite of applications can bring concrete business benefits to airlines around the world. The company is thus positioning itself as the practical solution for EFB software that will support airlines in the post-pandemic recovery.

The broad portfolio of new customers demonstrates the appeal of AVIOBOOK’s solutions. In India, low-cost carrier IndiGo has chosen AVIOBOOK for its fleet of over 270 aircraft to support its operations as the largest airline in the country by market share. And two members of the Indigo Partners Group, JetSMART in South America and Lynx Air in Canada, saw in AVIOBOOK a strong partner to help accompany their rapid growth plans.

Built on a decade of experience, AVIOBOOK is a proven solution that differentiates itself through its deep back-office integration and extensive user-driven functionalities. AVIOBOOK’s experience in the development of adaptable and flexible solutions, with previous implementations at 60+ airlines around the world, has been key to ensuring the success of these projects.

AVIOBOOK is proud to welcome IndiGo, JetSMART and Lynx Air to the AVIOBOOK community.

About IndiGo

IndiGo is amongst the fastest growing low-cost carriers in the world. IndiGo has a simple philosophy: offer fares that are affordable, flights that are on time, offering a courteous, hygienic, and hassle-free travel experience. With its fleet of 275+ aircraft, the airline is operating over 1,500 daily flights and connecting 71 domestic destinations and 24 international destinations. For

About JetSMART

Founded in 2016, JetSMART Airlines is an Ultra-Low-Cost Carrier with principal operations in Chile and Argentina. The Company operates a fleet of 20 Airbus A320-family aircraft with an order for additional 79 Airbus A320-family aircraft and serves 33 destinations. JetSMART’s customers benefit from an expansive route network with many routes not offered by competing airlines.

About Lynx Air

Lynx Air (Lynx), formerly Enerjet, is Canada’s newest ultra-affordable airline. Headquartered in Calgary, Lynx is on a mission to make air travel accessible to all, with low fares, a fleet of brand new Boeing 737 aircraft and great customer service. Lynx is a privately owned Canadian airline with the financial backing and industry expertise required to transform the Canadian aviation landscape.

About AVIOBOOK, a Thales Group Company

Acquired by the Thales Group company in 2016, AVIOBOOK has maintained its start-up agility and reactivity while benefiting from the support of a worldwide leader in avionics, telecommunications, and cybersecurity, bolstered by a unique experience in designing and deploying secure and robust digital solutions.

AVIOBOOK’s product line has continued to grow and now represents the industry leading Electronic Flight Bag (EFB) solution used by 60+ airlines around the world. Providing smart and integrated solutions to its airline customers, the AVIOBOOK suite guarantees increased operational efficiencies and enhanced decision making. After over a decade of innovation, AVIOBOOK is determined now more than ever to continue harnessing the power of data and intuitive design to facilitate airline operations.
